Indian space programme in addition to providing telecom, weather, navigational services, would also take a pride Big Science and India place among the spacefaring nations of the world. Instead of using radioactive materials, fusion reactors like ITER will use light elements like hydrogen and helium to generate clean green energy. But the government has also taken some serious steps in putting India on the world science map. RsReaditifyouhaveanyinterestinthedevelopmentofthemilitary-industr The government should also create many specialized research centres in the universities like the CNRS in France. India is now actively participating in and, in some cases, leading advances in pharmaceuticals, agriculture and energy. Theyalsolovemeetingwiththescientists,goingtothestalls,mobbingthem also love meeting with the scientists, going to the stalls, mobbing the Nobel laureates.
