Our hands. Even a species-ethics, as advocated by Habermas, does not acquire its conception of the human, and that of human dignity, on the path of a purely biological conception of species; rather, it explains the exceptional position of the human via the phenomenon of morality and the experience of conscience.

Ein philosophische Kritik Fischer, Erlangen. In conclusion, the main feature Friedrich Wilhelm Graf derides: . Today, the necessity of an environmental ethics, which takes the interwovenness of human life with the totality of the biosphere, is beyond dispute.
