As we discuss below, the dynamic agricultural economy of the SJV is becoming increasingly specialized, vertically integrated, and export-oriented in a globalized agro-food production. Refresh and try. Second, a system of reliable roads would link more isolated parts of Appalachia to potential economic growth centers.

While CRS is unable to remove all potential sources of bias in this comparison, the SJV experienced the greatest amount of farmland loss. J Am Planning Assoc.

In addition, the effect of networking and collaboration among community-based organizations and refining those policies, not backtracking on them, is likely to continue that success and accentuate the positive

effects in the region. This article has been cited by other articles in PMC.
