The ancient Babylonians noticed that although some sort of eclipse happens every year, the exact same type of eclipse returns after precisely eighteen years and eleven and one-third days. Have a news tip, correction or comment? See our full coverage .

Butnosoonerhadthesunbeguntoemergebackintoview,Louiswasssooverwhelm You have to be careful when attempting to read ancient texts as astronomical guide books. A recent study published in an edition of the Beit Mikra Journal in Hebrew by researchers from Ben Gurion University may have pinpointed a keypoint in biblical history: the date of the Battle of Gibeon. But this is not always true.
